

## **SERVICE / WHO WE ARE**

### **WHO WE ARE**

Textile-Xperts.com is a brand installed in the year 2011 by the company TRANSORGTEC TRADING GMBH in Germany, D-40593 Duesseldorf-Benrath, based in the field of procuring the national and international textile industry with solutions. The service does include the valuation of entire textile production plant installed machines, whereas the owner are intending to liquidate the textile production plant in a coordinated way silentry an das far as necessary, granting to complete filling up the social fund in order to providing a social attention of released workers in a serious way according to governmental rules and regulations.

In this regard, we already completed several requirements of such installations in France, Switzerland, Austria as well as Italy and Germany.

Basic issue of a liquidation auction sale will be the installation of a WIN/WIN situation.

WIN/WIN means that on the one hand, the owner of a textile production factory get a valuation of the machines installed on floor on a realistic expectation, shutting down the mill in authentic sales figures and realizing the potential buyers to purchase machineries at a serious price. This allows on the one side that all machineries will be sold in due time and do find a new home and potentrional buyers are getting their machinery investment at a serious and realistic price.
